

## Personal Profile

Hi, my name is Birat Kiju. I am a passionate web developer with hands-on experience in Laravel, PHP, JavaScript, and Python. I'm currently pursuing my Bachelor's in Information Management (BIM) and studying in the 8th semester. I'm actively seeking an internship opportunity where I can apply my skills, learn from real-world projects, and contribute to a dynamic development team.

### BACHELOR IN BIM (BBA PROGRAM)

**Bhaktapur Multipal Campus**

**TRIBHUVAN UNIVERSITY**

STUDYING BIM 8 sem

### SEE IN SECONDARY EDUCATION EXAMINATION

**Prabhat English Secondary School**

COMPLETED – GPA 2.65

### PLUS-2 IN PLUS-2 khwopa

**secondary school**

COMPLETED –CGPA 2.46

## Work Experience

### Stock and inventory management at cosmetic buiness

2025-05-10 To 2025-06-30

A business organization works through areas like operations, finance, sales, and administration. Finance manages invoices, taxes, and expenses, while stock management tracks product quantities and updates items during purchase or sale. Laravel and PHP help build systems that handle orders, invoices, tax calculations, and inventory automatically. Combining business workflow knowledge with Laravel lets you create practical software used by real companies.

## Projects

### E-commerce

<https://github.com/biratkiju1/summerproject>

In an e-commerce project built with Laravel, stock management keeps track of product quantities and updates inventory whenever items are purchased or restocked. Order management handles the full process of customer orders, from adding items to the cart to confirming payment and updating the order status. A rating and review system allows customers to share feedback on products, helping improve trust and sales. eSewa integration enables secure online payments by connecting your Laravel app with eSewa's API for payment requests and verification. Customer management stores user profiles, addresses, order history, and preferences so the system can give a personalized shopping experience.
